How do you say the word in French, in Chinese, in your language? Although people usually know what the word means, it sometimes has no exact translation. It's not surprising, because the idea of home is different from country to country, and from person to person. A home is more than a roof and four walls. It's the cooking, eating, talking, playing and sleeping that go on inside. And at home you usually feel safe and relaxed. Homes look different in different countries. They also have different things inside. For example, in cold northern Europe, there's a fire in the living room or kitchen and all the chairs face it. In the south, where the sun shines a lot and it's more important to keep the heat out, there are small windows and cool stone floors. We asked some people about their homes. How often do people move house in your country?

56. Dear Editor,

I am writing to tell you about the survey on the activity of "Grabbing red packets" in our class. Recently, we conducted a survey on this popular activity. Here are the results.

70% of the students in our class have taken part in grabbing red packets. Among them, 75% are in favor of it. They think it is a popular form of entertainment that brings more fun. It also helps people get closer and make more friends. However, 25% of the students feel worried. They say it takes too much time and they have less communication with their families. Staring at the screen for too long is also harmful to their eyes.

In my opinion, grabbing red packets can be a fun way to relax, but we should use it wisely. We must control the time we spend on it and not let it affect our study and health.

Yours sincerely,

Li Hua
