八、阅读理解(共15小题，每小题2分，满分30分)（共 15 小题，每小题 2 分，共 30 分）

TECH& LIFE MEMORY HELPER A talented young team from Ireland, the creators of Memory Helper, developed this support app (应用软件) for people with dementia (痴呆). And they won the final at the 2020 competition, standing out among 5,400 students from 62 countries, Mars Times reported. Last year, Laura, Aaron and Vicky put their heads together for Technovation Kids(TK), an international competition that encourages teenagers to create an app that solves a community problem. The inspiration for their project came from their teacher's mother, who had dementia and died earlier this year. To complete their project, the three designed an app to support both people with dementia and their caregivers. The app solves some common problems connected with dementia like loss(失去) of memory. “We hope that our app can reach millions of people who have dementia and just make their lives kind of easier,” Laura said.

47. The app Memory Helper _____.
A. is used worldwide
B. is designed for the old
C. helps deal with dementia
D. connects people's brains

48. Where was the idea of creating Memory Helper from?
A. The illness of a woman
B. The advice of some students.
C. A scientific problem
D. An international competition.

49. The small program Memory Game in the photo is probably to _____.

A. kill time
B. practice the brain
C. store memories
D. find back lost things

50. From the material above we can know that _____.

A. the photo was provided by Laura
B. Technovation Kids took place in Ireland on June 21
C. Wuhan Daily reported the news before Mars Times
D. the news Memory Helper comes from TECH& LIFE section

51. The passage mainly tells us _____.

A. international competitions are important
B. a teacher helped three kids win the final
C. three teenagers have made something useful
D. everyone can realize their technology dream B When I was very young people in our village lived by planting fruit trees. My grandmother always took me to the orchard (果园) on the hill. At that time, they had to carry water from the river at the foot of the hill to halfway up the hill. Even though we worked so hard, the production level of fruit was still low because it was short of water there. One day, two young men led a group of workers to our village. They learned about the difficulties we faced, and later, canals and other projects began to be built in my village, “Who are they?” I asked. “They are good men from our government,” my grandma replied. Shortly afterwards, I moved to another city for my junior high school. The only reason I ever came back to my hometown was my grandmother. One day, my family and I made time to return. We were surprised because everything had changed. The canal ran past every orchard so villagers didn’t have to go up and down the hill anymore. The river was now so clean that fish swam happily in it. When we arrived home, my grandma took out some fresh pears and apples. She told us that after the water conservation project (水利工程) was completed, a policy (政策) was made to encourage more people to increase the fruit production with clean water in the river. Thank those good men who have devoted themselves to the development of our countryside. Nowadays, people work hard to live in a big city. However, we should not forget our hometowns where we are from.

52. The good men came and offered help probably because of _____.
A. the villagers’ suggestions
B. the government’s support
C. a school’s practical activity
D. a company’s engineering plan

53. We can infer from the passage that _____.

A. the grandmother doesn’ t like to live in the city

B. the village is a place of interest for tourists now

C. there will be more fruit production in the village

D. more people like to work in the countryside nowadays

54. The underlined phrase devoted themselves to is closest in meaning to _____.

A. prepared much for

B. donated money to

C. drawn public attention to

D. put much effort into

55. What can be the best title for the passage?

A. How is a village improved?

B. Who are the good men?

C. Why do people come back?

D. What does a hometown mean? C Think of somebody you really admire. You will probably find that their success didn’t come easily. As “Father of Hybrid Rice(杂交水稻)”, Yuan Longping got over great difficulties and spent his whole life working to reduce world hunger and helping to feed the country with the largest population. Wu Mengchao, the “Father of Chinese Hepatobiliary Surgery(肝胆外科)”, focused on saving people’s lives for nearly eighty years. He performed more than 16,000 operations during his life. Holding the surgeon’s knife for such a long time deformed his fingers. Wu once said, “It would my greatest happiness if I could work at the operating table until my dying day.” In 1969, in order to solve the problem of treating malaria(疟疾), Tu Youyou, pharmacologist (药学家) took on the job as head of a research team. She and her teammates performed different kinds of experiments. However, the results were disappointing. Instead of giving up, they kept trying. Finally, in 1972, they made it! In 2015, at the age of 85, she received Nobel Prize. Thomas Edison, the inventor of the light bulb believed that every failure was a step towards success. He once said, “If I find 10,000 ways something won’t work, I haven’t failed. I am not discouraged, because every wrong try is another step forward.” Sometimes, their success was a surprise, even to themselves. The famous scientist Alexander Fleming said, “When I woke up just after daybreak on 28th September, 1928, I certainly didn’t plan to revolutionize(变革) all medicine by discovering the world’s first antibiotic(抗生素). But I guess that was exactly what I did.” Some people only became successful after their deaths. Not like Pablo Picasso who became

famous and very rich during his lifetime, the artist Vincent Van Gogh only sold one painting all through his life and that was to a friend. But he kept painting and he painted more than 2,000 artworks in the following ten years. Now his paintings are very popular and they sell for millions of pounds. One thing all these people have in common is sticking to their goals no matter what.

56. What do Yuan Longping and Wu Mengchao have in common?

A. They succeeded in solving world problems.
B. They spent all their lives serving people.
C. They achieved a lot in the medical field.
D. They are remembered for their happiness.

57. The underlined phrase deformed his fingers could be replaced by _____.

A. changed the shape of his fingers
B. made him feel down
C. gave him too much pressure
D. got his fingers cut off

58. It is clear that _____.

A. Pablo Picasso became famous after his death
B. Vincent Van Gogh painted 2,001 artworks in his life
C. it took Tu Youyou’ s team about 3 years to reach their goal
D. Thomas Edison tried 10,000 ways before he invented the light bulb

59. When Alexander Fleming discovered the first antibiotic, he _____.

A. felt too tired to stay awake
B. didn’ t plan to study all medicine
C. knew exactly what his success meant
D. didn’ t fully realize its importance

60. What does the writer mainly want to tell us?

A. Not everyone can be successful.
B. The more difficulties, the better.
C. Great achievements aren’ t made naturally.
D. Great hopes make great men.
