1. Are you going to live in the school?

A new term is coming. Are you going to live in the school dormitory? I think there are advantages and disadvantages.

Living in the school has many benefits. First, it saves a lot of time. We don't need to spend time on the way between home and school, so we can focus more on our studies. Second, it helps us become more independent. We have to learn to manage our own life, like tidying our beds and washing our clothes. This is a good chance to grow up.

However, there are some disadvantages too. We may lack private space. In a dormitory with several classmates, it might be noisy and affect our sleep. Also, without our parents' care, we might not get used to the life at first. For example, we have to handle everything by ourselves.

In my opinion, I decide to live in the school. I want to challenge myself and learn to be independent. I believe I can get along well with my roommates and enjoy the school life.
